

LAWRANCE TALA OGAYWA

Software Developer | Machine Learning Enthusiast | IT Professional | AI & Data | IT Professional

0112888507 | lawrancetala@gmail.com | P.O. Box 47716-00100, Nairobi | www.linkedin.com/in/lawrance-tala

PROFESSIONAL SUMMARY

Computer Science professional with a Bachelor of Science in Computer Science and experience in **AI data annotation, software development, machine learning projects, technical support, data handling, and operations support**. Experienced in labeling and reviewing data for AI/ML applications, following detailed project guidelines, validating annotated datasets, and maintaining accuracy and consistency. Skilled in software and web development using Python, PHP, JavaScript, Laravel, React, FastAPI, and WordPress, with practical exposure to machine learning, data analysis, and AI model development. A detail-oriented and adaptable professional with strong problem-solving, analytical, communication, and technical skills, interested in opportunities involving **AI, machine learning, data annotation, data evaluation, software development, and technology**.

CORE SKILLS & COMPETENCIES

| Software development and programming | Machine learning and predictive analytics | web development | Frameworks | Customer Support | Project coordination | Database design and Management | Data analysis | Technical Documentation | Research and Data Management | Computer Proficiency | AI Data Annotation & Labeling | Customer Support | Operations Support

Technical Skills: MS Office (Word, Excel, PowerPoint, Access, Outlook,)

NOTABLE ACHIEVEMENTS

-
- Performed **AI data labeling, annotation, classification, and validation** tasks to support the training and improvement of artificial intelligence and machine learning models, while maintaining accuracy and consistency.
 - Successfully developed **machine learning solutions** for energy consumption prediction, crop recommendation, and paddy disease classification using Python, TensorFlow/Keras, scikit-learn, and predictive modeling techniques.
 - Developed and integrated **AI-powered applications** using FastAPI and React, connecting machine learning models with web-based interfaces to deliver prediction and classification functionality.
 - Applied strong **data quality and attention-to-detail practices** when reviewing and validating datasets, following detailed project guidelines, identifying inconsistencies, and maintaining reliable data for AI-related tasks.
 - Developed and deployed **web-based solutions** using Laravel, PHP, WordPress, JavaScript, and related technologies, demonstrating software development, troubleshooting, database management, and technical problem-solving capabilities.

PROFESSIONAL EXPERIENCE

AI DATA ANNOTATOR

Atlas Capture | Remote | June 2026 – Present

Key Achievement:

- Successfully performed accurate AI data annotation, review, and validation tasks in accordance with project-specific guidelines, contributing to the preparation of high-quality training data for artificial intelligence and machine learning models.

Experiences:

- Perform AI data labeling and annotation tasks to support the training and improvement of artificial intelligence and machine learning models.
- Accurately label and categorize datasets according to project-specific guidelines and defined quality standards.
- Review and validate annotated data to identify inconsistencies, errors, and quality issues.
- Follow detailed annotation instructions and project guidelines to maintain consistency across datasets.
- Apply careful judgment and strong attention to detail when classifying and reviewing data.
- Use digital annotation platforms and tools to process and prepare datasets for AI systems.
- Maintain required quality and productivity standards while completing assigned annotation tasks.
- Identify unclear or inconsistent data during the annotation process and apply the appropriate project guidelines when reviewing it.

Systems and operations support Ampersand E-Mobility OCT 2025- SEPT 2026

Key Achievement:

- Successfully supported the reliable operation of technology-enabled charging station systems by accurately managing digital transactions and operational records, providing first-level technical troubleshooting, and promptly escalating system and equipment issues to minimize service disruptions.

Experiences:

- Assist customers with fast and efficient battery swap services.
- Welcome and onboard new riders by explaining the battery swapping process and station procedures.
- Provide customer support by answering questions and resolving service-related issues.
- Troubleshoot basic battery, charger, and station issues, escalating complex problems to the technical team when necessary.
- Monitor battery charging status and ensure batteries are charged, stored, and handled safely.
- Inspect batteries and charging equipment to ensure they meet operational and safety standards.
- Maintain accurate records of battery swaps, inventory, and daily station operations.
- Monitor battery inventory and ensure sufficient charged batteries are available to meet customer demand.
- Report equipment faults, operational incidents, and customer feedback to supervisors.
- Ensure the charging station is clean, organized, and compliant with safety procedures.
- Coordinate with operations and technical teams to minimize service disruptions.

- Promote a positive customer experience through professional, timely, and courteous service.

Production Operator

M-KOPA

SEPT 2025 – OCT 2025

Key Achievement

Consistently met daily production targets while maintaining high standards of quality, accuracy, and compliance with production procedures.

Experiences:

- Processed and handled mobile devices according to established production procedures.
- Conducted device inspections, testing, and quality checks to ensure products met company standards.
- Identified, documented, and reported defective devices and production issues.
- Maintained accurate production records and updated operational data as required.
- Achieved daily production targets while maintaining high levels of accuracy and quality.
- Adhered to company safety, quality, and operational procedures at all times.
- Collaborated with team members and supervisors to improve workflow efficiency and productivity.
- Assisted in sorting, grading, packaging, and preparing devices for the next stage of production.
- Maintained an organized and clean work environment to support efficient operations.
- Participated in continuous improvement initiatives aimed at enhancing productivity and reducing errors.

Web Developer and Sales Trainee (Industrial attachment) Softlink Options Limited May 2025 – AUG 2025

Key Achievements:

- Contributed to the successful development, deployment, and maintenance of web solutions using Laravel, PHP, WordPress, and related technologies, improving website performance and supporting client digital transformation objectives.

Experiences:

- Developed and maintained responsive websites using WordPress, HTML, CSS, PHP, Laravel, cPanel, and Odoo, improving functionality and user experience.
- Managed domain registration, DNS configuration, hosting environments, and website deployment processes.
- Assisted in troubleshooting web application issues, reducing downtime and enhancing website performance.
- Collaborated with developers and sales teams to deliver client projects within deadlines and quality standards.
- Participated in customer requirements gathering and solution demonstrations, strengthening stakeholder communication skills.
- Applied web development best practices, including website optimization, content management, and system administration.
- Gained hands-on experience in software development lifecycle (SDLC), client support, and project coordination.

EDUCATION BACKGROUND

Bachelor of Science in Computer Science Laikipia University, Kenya- December 2025

Kenya Certificate of Secondary Education Ramba Boys High School Kenya- 2019

PROFESSIONAL CERTIFICATION & AFFILIATION

Software Development-Power Learn Project 2026

Soft Skills Training - Brighter Monday 2025

Oracle Cloud Infrastructure - Certified Ai Foundations Associate 2025

IT Fundamentals – IBM SKILS BUILD
